

A FRESH START FOR A FAMILIAR VOICE

If you're living with pain, you're not alone. For more than seven years, KS95's Ryan suffered through his daily routine with pockets full of Advil and a painful secret he kept from listeners.

Ryan's chronic hip pain hindered every aspect of his life, from uncomfortable sitting at the mic to vacations spent looking for benches to sit down. Finally, Ryan found relief with Twin Cities Orthopedics and the EXCEL Orthopedic Surgery & Recovery program.

“TCO changed my life, and they can change yours, too.”

- RYAN FROM KS95

Fast forward to today, and Ryan is completely pain-free after having both hips replaced. His only regret was wishing he would have made the decision sooner.

Watch Ryan's story and learn more about EXCEL at [TCOEXCEL.com](https://www.tcoexcel.com).
